Also included in this note is a link to an on demand step-by-step job aid to help you navigate uploading goals into Workday.

Sponsored Programs Financial Management (SPFM)

- A new SharePoint Site for SPA is now available. All job aids, forms, etc. are now housed in an updated SharePoint site called [Sponsored Programs Financial Management and Accounting Group](#). Check it out!
- The Standard Operating Procedure (SOP) on [Purchase Materials, Supplies, Travel and Other Grant Expenses](#) has been updated to include the following new process and documentation:

Supply Purchases made within 30 days from Award End Date:

Supplies and equipment may not be purchased simply to use an unobligated balance remaining at the end of a project or used to restock inventory to replenish supplies used during the life of the project. Supply purchases near the end of an award period will require project-specific justification and/or sponsor approval. [The Supply Purchases Made within 30 Days From Award End Date form](#) is used to document the justification for purchase of supplies at the end of the grant and should be used when total supply purchases in the final month exceed \$500. The completed form should be saved as an award attachment in Workday and is a required supporting document during the Reconciliation and Review process.

- Please ensure grants with supplies requests in the last 30 days of a grant's period of performance have this document completed and saved in Workday before initiating purchases.
