

Green Business Challenge Case Study: Saint Louis University (SLU): 2015

Accomplishments

- Installation of 9 solar arrays on campus.
- Published first greenhouse gas inventory for SLU.
- Ranked 3rd in US for e-waste recycling collected during RecycleMania this past spring.
- Achieved STARS Silver Rating.
- Princeton Review's top green school, Sierra Cub "Cool School", and Tree Campus USA by National Arbor Day Foundation.

Innovations

- Created Green Billiken Certificate Program to education/ inspire sustainable knowledge and actions across campus.
- Labeled all interior recycling bins with instructional label for recycling.
- Published updated sustainability map featuring water bottle refill stations, solar arrays, bike racks, compost containers, our Green Dining Alliance Certified café, and more.
- Created a water bottle pledge to promote not using disposable water bottles.
- Held Local Sustainable SLU Soccer Game which featured a recycling game at half-time, awareness programming, and recycling collection.

- Website – greenbilliken.slu.edu
- Owner or Tenant – Saint Louis University
- Square Footage – 7.5 million sq. ft.
- Green Team Contact info – Greenbilliken@slu.edu

A significant quote from a leader in your company:

Saint Louis University holds to strong ideals of what it means to be a Green Billiken as we extend our sustainability programs with achievements such as the installation of our 9 solar arrays and the implementation of engagement programs like the Green Billiken Certification. As a Jesuit, Catholic institution, we can connect our programs to our Jesuit mission of caring for creation and exemplifying stewardship of the environment on our campus and in our community.
