6. Availability of Instructional Resources and Information Technology

6A. University Library Instructional and Information Technology Resources

Pius XII Memorial Library

- The Access Services Department has 10 PC laptops available at the circulation desk for student use in the library that can connect to networked B&W and color printers. Usage statistics are collected.
- The Level 1 *i*Commons contains 64 PC workstations networked to B&W and color printers (usage statistics are collected) and two scanning stations.
- Three collaboration stations with a flat screen monitor for computer and video display are available for small group use in the *i*Commons.
- One media viewing room is available for use with restricted library audiovisual reserve materials. Usage statistics are collected.
- Six group study rooms are available for student use; four of them have a flat screen monitor for computer and video display. Usage statistics are collected.
- The Library has two classrooms with teacher workstations dedicated to information literacy instruction by library faculty (one has 13 student workstations; the other has 16 student workstations and a Smartboard). Usage statistics are collected.

Medical Center Library (MCL)

- The Circulation Department has 29 PC laptops available at the circulation desk for student use in the library that can connect to networked B&W and color printers. Usage statistics are collected.
- The Cyberspace computer area contains 14 PC workstations networked to B&W and color printers.
- The Library contains 16 additional public PC workstations networked to B&W and color printers and one scanning station.
- Six group study rooms are available for student use; four of them have a computer and projection equipment or a flat screen monitor for computer and video display.

Omer Poos Law Library

- The Library contains 50 PC workstations networked to B&W printers and one scanning station.
- Eight group study rooms with a whiteboard are available for law student use. Usage statistics are collected.

Madrid Campus Library

- The Library contains 14 PC workstations networked to printers.
- One multipurpose room with a computer and projection equipment is available for student use.

Online Library Resources

- 1,003 Library electronic reference and aggregation services are available online (usage statistics collected) via the SLU Libraries website.
- Library research guides are available online (usage statistics collected)
 - Pius and MCL: <http://libguides.slu.edu/>
 - Law: <http://slu.edu/x49210.xml>
 - Madrid: In library only
- Course e-reserves materials are posted on a password-protected website. The materials are vetted for fair use compliance; usage statistics are collected.
- The SLU Libraries Catalog and MOBIUS consortium catalog are accessible via the SLU Libraries website.

6B. Instructional and Information Technology Resources in the Classroom

- Saint Louis University uses **Blackboard** for its Course Management System (CMS). Blackboard supports faculty and student users for both the St. Louis and Madrid campuses and provides access to many great tools to support SLU's educational mission. Information Technology Services (ITS) and the *Reinert Center for Teaching Excellence* (CTE) at SLU are collaborating to provide a superior level of support to our users.
- SLU provides many technological products and services to facilitate a challenging and rewarding learning environment for students. These products allow instructors and students to post course materials online, conduct online real-time courses, facilitate discussion groups, post assignments, and capture lectures for use outside of class. Tool available to instructors include:
 - **Tegrity Lecture Capture.** Allows faculty to record an entire lecture in a Tegrity-enabled classroom or to record supplementary material outside of class for students to access online at their convenience.
 - **Wimba Classroom.** An online, real-time collaboration tool accessed through Blackboard.
 - **Respondus.** A tool for creating and managing exams that can be printed to paper or published directly to a Blackboard course.
 - **Campus Pack.** A tool for creating wiki, blog, and journal content associated with a class or personal space.
 - **WebWork.** Allows instructors to deliver homework sets or problem sets to students over the Internet.
- Across campus, SLU academic programs are using advanced instructional technology in the classroom to engage students and enhance student learning. Beyond the media-enabled classroom, just a couple of examples of the use of cutting-edge technology to improve the educational experience include:

- The Life Support Skills Center (LSSC) provides a realistic, safe learning environment for clinicians and healthcare professionals at all levels of practice. Highly sophisticated technology supports the "hands on" practicing and perfecting of medical diagnostics and skills training. Its resources are being aggressively integrated into the resident and medical student curriculum as well as incorporated into the educational training of healthcare professionals from multidisciplinary specialties.
- SLU Parks College provides engineering students with easy access to a sophisticated computer-aided design laboratory, wind tunnels, a water tunnel, a structures laboratory, and a reconfigurable engineering flight simulator. These resources are integrated into the engineering curriculum and provide students with an opportunity to enhance their design and technical skills.

6C. Campus Connectivity

- SLU students have easy access to University networks and information technology resources from almost any location on campus as well as from off-campus locations.
 - SLU has more than 5,000 open, high-speed, wired network ports across campus with approximately 2,500 located in student housing alone.
 - Another 2,500 wired network connections are located in SLU Libraries (200), classrooms (1,650), and computer labs.
 - SLU's Billiken Wireless network is available to all faculty, staff and students on campus and can be accessed u. The wireless connection acts like an umbrella over the campus and provides instant access to anyone under it. Wireless is available in most areas of campus, including many outside areas.
 - Remote (outside of the campus network) access to subscription, electronic library resources is available to current SLU faculty, staff, and students with authentication.

6D. Computer Labs

- Nearly 600 University owned workstations are available across campus for general student usage. These workstations are found in a variety of locations including computer labs, classrooms, residences halls, libraries, the student center, and other common spaces.
- SLU provides two dedicated, open-access public labs across campus as well as fifteen classroom computer labs. Open-access labs are available for general computing and include basic University licensed software (Microsoft Office, EndNote, SPSS, etc.) and select open source applications.
- The Instructional Media Center (IMC) and the Instructional Technology Center (ITC) offer two separate labs with computer workstations containing specialized tools for creating multimedia materials. Workstations in these labs are equipped with tools for:
 - Audio, video and graphics software
 - Black and white, color, and poster printing
 - Slide scanning
 - Flatbed scanning up to 11x17 and "OCR"
 - Audio and video digitizing
 - Audio/video recording facility
 - DVD and CD Recording
- SLU computer labs average approximately 25 workstations each.

6E. University Information Technology Infrastructure

- Just over 5 years ago, SLU adopted the **Sungard SCT Banner** system to integrate Student, Business & Finance, Development, and Human resources information systems within a single, shared Enterprise Resource Planning tool. Banner faculty, staff, and student quick access to information around the clock.
 - Banner Self-Service provides access for Faculty to:
 - Teaching schedules
 - Course lists
 - Grading
 - E-mailing classes/advises
 - Banner Self-Services provides access for Students to:
 - Billing information
 - Course registration (add/drop)
 - Financial aid information
 - Online course evaluations
 - Parking and Card Services vehicle registration
 - Student records and transcript requests
- **Activity Insight** was recently adopted University-wide. This system provides a web-based faculty information management system which enables the collection, organization, sharing, analysis, and presentation of critical data regarding faculty scholarship, research, and service activities. Activity Insight is a resource for faculty for tracking and documenting their own productivity as well as institution-wide for planning, assessment, and accreditation efforts.
- The **SurveyDIG Online Course Evaluation System** is the University's online course evaluation tool. Integrated into Banner, SurveyDIG provides a secure interface which enables students to submit an anonymous course evaluation via a link on their schedule in Banner Self-service and facilitates access to results by faculty and academic administrators.

- FY 2010 – 2011 IPEDS data is preliminary as of March 6, 2012
- Institutional support includes administration and fundraising expenses incurred.

For Fiscal Year 2008-2009, our change in net assets from all sources—or revenues over (under) expenses—was (\$199,361,370). This loss was due to the general economic downturn and adverse market conditions for investments and reflects a decrease in the market value of the University endowment of \$234 million in Fiscal Year 2008-2009. Of course, investment return is included in non-operating income, which is not budgeted. Of note, however, is that our operating income was a positive \$70 million for 2008-2009. Due to the strength of the University's financial positions, we were able to withstand the pressures of a poor economy with few effects on the University's operations.

University Credit Hour Policy

In full accordance with federal regulations as defined under 34 CFR 600.2, Saint Louis University defines a semester hour (typically referred to as a “credit hour”) as the unit of academic credit awarded for the attainment of intended learning outcomes verified by evidence of student achievement, and as represented on official University academic records by the successful completion of an amount of student work as detailed below.

For classroom and/or direct faculty instruction (regardless of delivery mode):

One semester hour of credit is awarded for the attainment of intended learning outcomes resulting from ***both***:

- 1) Student engagement in a reasonable equivalent of one hour of classroom or direct faculty instruction each week (typically 50 minutes) for approximately 15 weeks (or the equivalent amount of work over a different period of time)
- 2) Student completion of a reasonable equivalent of a minimum of two hours of out-of-class student work each week for approximately 15 weeks (or the equivalent amount of work over a different period of time).

For experiential learning (laboratory work, studio work, internships, practica, and related educational experiences/environments):

One semester hour of credit is awarded for the attainment of intended learning outcomes resulting from student engagement in a reasonable equivalent of three hours of educational activity/experience each week (typically 2.5 clock hours) for approximately 15 weeks (or the equivalent amount of work over a different period of time)

Note: Pedagogical and other methodological distinctions among academic disciplines may result in requirements for amounts of student work that exceed – but may not fall short of – the minimums established in this definition.

University Catalogs

University catalogs are accessible via the following link: <http://www.slu.edu/x22728.xml> . Catalogs contain course descriptions and applicable credit hour requirements.

University Course Schedule

University course schedules are accessible via the following link: <http://www.slu.edu/x22694.xml> . Each semester’s complete schedule would comprise an MS-Excel sheet more than 4,000 lines long. Complete reports on course offerings in any term are available upon request.

Per the requirements of the Credit Hour Worksheet above, below is provided information for all courses awarding six (6) or more credit hours.

Tuition and Fees

A complete list of University tuition and fee charges is accessible via the following link: <http://www.slu.edu/x5224.xml>. Tuition and fees charges vary by academic level (baccalaureate, post-baccalaureate) and, in some cases, by particular programs. Tuition and fees are established each year upon consideration of associated institutional expenses, market conditions, benchmark/competitor institution charges, and other considerations.

Section II: Student Complaints

Grade Appeals and Related Academic Grievances

Students who have a grievance against a faculty member or academic administrator regarding (1) an evaluation of their academic work (typically a grade given for an assignment or a final term grade), or (2) a related academic concern, including but not limited to academic registration, tuition and fee charges, etc., can participate in the formal appeal process established in their governing academic unit. Those policies are published on the websites of academic units (e.g., <http://www.slu.edu/x12658.xml>, <http://www.slu.edu/x16931.xml#gradeappeals>, <http://www.slu.edu/x19900.xml>) and are published as part of the academic catalogs of academic units, accessible via the following link: <http://www.slu.edu/x22728.xml>. Appeals of an academic decision beyond the respective academic unit may be made to the Office of the Vice President for Academic Affairs, which maintains records of the appeals and of the disposition thereof.

Non-Academic Grievances

The following grievance procedure, accessed via the following link: <http://www.slu.edu/x31836.xml>, is available to students who feel they have not received fair treatment with respect to services provided by the University, outside of the classroom.

- A student with a grievance should first notify the person or office responsible to seek a resolution. Such notification should be in writing and should be timely submitted.
- If the student does not receive a satisfactory response within a reasonable period of time, but no later than ten days or less, he or she should notify in writing the director or dean responsible for the particular office or department. The dean or director will then be responsible for a reply within ten days from the day of receipt.
- If the student still is not satisfied that appropriate action has been taken, he or she should submit his or her concern in writing to the appropriate Vice President. The Vice President will be the final arbiter of the problem, and will notify the Student of the resolution within ten days of receipt of the complaint. For further assistance, contact the Assistant Vice President for Student Development/Dean of Students.

Complete records of such grievances, and records of their disposition, are maintained by the Office of the Vice President for Student Development.

Student Conduct

Students are most broadly and commonly referred to the Office of Student Conduct to document a complaint involving the [Student Code of Conduct](#). One definition provided in the Code outlines the following regarding complaints.

2.1.7 The term "Complaining Party" refers to any person or entity who submits an accusation that a Student violated the Code of Conduct. When a Student believes that s/he has been a victim of another Student's misconduct, the Student who believes s/he has been a victim will have the same rights under this Code as are provided to the Complaining Party, even if another member of the University community submitted the charge itself.

Once a student complaint is filed, if a determination is made that a student will be charged with a policy violation, the Office of Student Conduct will facilitate the hearing process. All documentation of student complaints entered through the Office of Student Conduct are recorded in the on-line database, Odyssey, and these electronic records are maintained beyond the required 3-year period of records.

Bias Incident Response Protocol

All incidents which would be determined bias-related or motivated will also be referred to the [Bias Incident Response Protocol](#), which includes a public, [electronic record](#) of situation resolution.

Sexual Assault Policy

Specific information is provided for students regarding options for reporting sexual crimes via the [Sexual Assault Policy](#). The Office of Diversity and Affirmative Action maintains internal logs to record and track complaints pursuant to the Sexual Assault Policy.

Policy on Harassment

The University's Policy on harassment applies to students, as well as faculty and staff (information about the Policy itself can be found here: <http://www.slu.edu/x24488.xml>; additional information about the complaint process is here: <http://www.slu.edu/x24540.xml>). In terms of "evidence that we receive, track and process student complaints in a timely manner", the Office of Diversity and Affirmative Action maintains internal logs to record and track complaints pursuant to the Policy on Harassment and the Sexual Assault Policy.

Section III: Transfer Policies

The University Registrar annually publishes policies governing transfer credit articulation via the following website: <http://www.slu.edu/x32849.xml>. In addition, transfer policies and practices for various colleges/schools/centers are detailed in their sections of their respective catalogs, accessible via this link: <http://www.slu.edu/x22728.xml>.

Section IV: Verification of Student Identity

All access to SLU's computer network—which includes access to SLU Global (the BlackBoard course management system), TaskStream, SLU network drives, the Banner system, etc.—is password protected. Students engaged in academic work (homework, exams, quizzes, lectures, chats, etc.) on these systems can only access them with the proper Student IDs/User IDs and corresponding passwords or passphrases. Other than the University-wide technology fee, there is no additional fee associated with identification verification processes for distance education students. Methods to ensure privacy of information on all such systems are employed by the Information Technology Services unit and all other administrative and academic units with access to data housed therein.

Section V: Title IV Program and Related Responsibilities

General Program Responsibilities

SLU's current Title IV Program Participation Agreement expires June 2012. The University is in the process of reapplying, with a deadline of March 31. Reports detailing the status of SLU's Title IV program, including any recent findings from Title IV program reviews, inspections, and audits, are available in the Resource Room.

Financial Responsibility Requirements

Institutional financial information is provided in the Resource Room. Documentation includes annual independent audits, A-133 reports, annual financial statements from SLU's Division of Business and Finance, and other data needed for the HLC to establish the financial health of the institution. On June 8, 2011, the U.S. Department of Education responded to the most recent (completed) A-133 audit. There were some findings, but DOE accepted our corrective actions. The current A-133 will be completed by March 31, 2012.

Default Rates

Financial aid default rates are regularly monitored and analyzed as part of the University's efforts to ensure student success during and after SLU enrollment. The table below details recent default rates.

| Year | Type of Rate | Rate |
|------|----------------------|------|
| 2010 | 3-Year Draft Rate | 4.2 |
| 2010 | 2-Year Draft Rate | 2.8 |
| 2009 | 2-Year Official Rate | 2.2 |
| 2008 | 2-Year Official Rate | 1.8 |
| 2007 | 2-Year Official Rate | 2.3 |

** Draft Rates are still under review.*

As part of the self directed default reduction efforts SLU has added a series of financial literacy workshops including sessions at SLU 101, U101 and specific school orientations. Although SLU was part of the Experimental Sites and not required to do the mandatory federal entrance and exit interviews, many students took advantage of voluntary opportunities for in-person counseling.

Campus Crime Information, Athletic Participation and Financial Aid, and Related Disclosures

Saint Louis University annually publishes its Security and Fire Safety Report, in compliance with the Clery Act, accessed via the following link: <http://www.slu.edu/x22134.xml>. Information about student-athlete participation and related financial aid is disclosed through NCAA and federal Department of Education reports annually, available in the Resource Room.

Student Right to Know

Examples of data and disclosures satisfying federal “Student Right to Know” requirements are available in the Resource Room. Additionally, related information can be found in the [Institutional Fact Book](#) and throughout the University’s websites.

Satisfactory Academic Progress

Saint Louis University’s Division of Enrollment and Retention Management, in full compliance with U.S. Department of Education Title IV program requirements, annually publishes to the University community the University’s Satisfactory Academic Progress Policies via the following website: <http://www.slu.edu/x54868.xml>. These policies govern the award of financial aid and related activities as required by the U.S. Department of Education.

Contractual Relationships

All contractual relationships (per HLC definition) are regularly reported on in the HLC’s Annual Institutional Data Update reports, available in the Resource Room.

Consortial Relationships

All consortial relationships (per HLC definition) are regularly reported on in the HLC’s Annual Institutional Data Update reports, available in the Resource Room.

Section VI: Institutional Disclosures and Advertising and Recruitment Materials

See section VII below.

Section VII: Relationship with Other Accrediting Agencies, and with State Regulatory Bodies

Information about SLU’s University-wide accreditation via the Higher Learning Commission is published on the University’s website via the following link: <http://www.slu.edu/x19049.xml>, and includes a link to the website of the Higher Learning Commission. A complete log detailing University and specialized/program-

level accreditation is included in Appendix A of the 2012 Self-Study, and can also be accessed via the link above.

SLU is in compliance with the U.S. Department of Education's "Program Integrity" requirements regarding our relationship with state regulatory bodies. Regarding approval for distance education programs, SLU is in the process of obtaining full authority from all 50 states, in accordance with the timelines established in the Program Integrity guidelines. Information about the status of each state authorization request can be obtained via the Office of the Vice President for Academic Affairs.

Section VIII: Public Notification of Comprehensive Evaluation Visit and Third Party Comment

A public notice inviting third-party comment about SLU was published on SLU's institutional accreditation website, in the Sunday, January 22, 2012, edition of the *St. Louis Post-Dispatch*, the major metropolitan daily newspaper, in the January 26, 2012, edition of *The University News*, SLU's weekly student newspaper, and on *Newslink* on January 31 and February 6, 2012. Announcements with links to the website notice were distributed via the *Weekly E-Note* on January 27 and in emails to the leaders of the Faculty Senate, Student Government Association, and Staff Advisory Committee who were asked to direct their respective constituents to the website. Additionally, e-newsletters distributed to the alumni of the University's colleges and schools contained an announcement linking to the website.

A copy of the published ad is provided on the following page.

Higher Learning Commission Invites Third Party Comment about Saint Louis University

Saint Louis University will undergo a comprehensive evaluation visit on April 23-25, 2012, by a team representing The Higher Learning Commission of the North Central Association of Colleges and Schools. The Commission is one of six accrediting agencies in the United States that provides institutional accreditation on a regional basis. It will review the University's ongoing ability to meet the Commission's Criteria for Accreditation. The University has been accredited continuously by the Commission since 1916.

For the past three years, Saint Louis University has engaged in a process of self-study to address the Commission's Criteria for Accreditation. The Commission's team will visit the institution to gather evidence that the self-study is thorough and accurate before recommending to the Commission a continuing status for the University. Following a review process, the Commission itself will determine the University's status.

The public is invited to submit comments regarding the University directly to:

Public Comment on Saint Louis University
The Higher Learning Commission
230 South LaSalle Street, Suite 7-500
Chicago, IL 60604-1411

Comments also may be submitted on the Commission's website at <http://www.ncahlc.org/Information-for-the-Public/third-party-comment.html>

All comments must be received by March 23, 2012. To be considered, all comments must be in writing and signed, and must address substantive issues related to the quality of the institution or its academic programs. The comments should include the name, address, and telephone number or email address of the person providing the remarks. Comments will not be treated as confidential. The Commission cannot guarantee that comments received after the due date will be considered.

Note: Individuals with a specific dispute or grievance with the University should request the separate Policy on Complaints document from the Commission office. The Higher Learning Commission cannot settle disputes between institutions and individuals, whether faculty, students, or others. Complaints will not be considered as third party comments.
