1) Call to Order and Announcements

- 4/26 Jesuit research symposium – Jordon Glassman presenting at this day-long symposium at the Jesuit Archives and Research Center.
- Ellen Crowell met with Debi Lohe of the Reinert center to discuss how to present prototypes to the SLU community. Came to conclusion that it would be unfeasible to try to present all three in full—instead, we need one “big picture” overview presentation, that orients people to what they will encounter in the full ppts for each prototype.
- So: There will be four ppts for this process: one overview that we present in person to the SLU community, and then one full-blown iteration for each prototype.

2) Prototype B Workshop

3) Adjourn
