**1) Call to Order and Announcements**

- Ashley Finley (AAC&U) visits on 4/5 with UCC at 10:00 a.m. and her public lecture is that day, 2:00-3:15 MORR 0600
- UCC summer 19 kick off: Serious Play 6/1 and 6/4 with Chris Carroll. Send Laura your availability.
- Summer 2019 like 2018: every other Tuesday from 9-12.

**2) Discussion of Qualtrics survey**

We need to ask the same questions of each prototype.

Draft questions:

- 1) Which aspects of this prototype most resonate with you and why?
- 2) Which aspects of this prototype seem feasible for SLU? Which do not? If something seems desirable but unfeasible, what kinds of resources would we need to make it feasible?
- 3) What are you not seeing here that you expected to see, or that you would have liked to have seen?
- 4) Comment box for specific questions with a possible answer or suggestion and a comment box for any suggestion.

Discussion:

- What types of comments are most helpful? We need generative comments, both positive/negative. Frame questions to generate ideas not opinions.
- How can we craft questions that show us where consensus lies?
- Specific comment box and general comment box for each prototype.
- Invite overall comments on the process as a whole.
- Note in script this is not a vote or pick one -- just give feedback.
- Taking submissions through mid-May.

**3) Team C Prototype workshop**

**4) Adjourn**
