Saint Louis University and YouGov surveyed 900 likely Missouri voters from February 18 to March 2 about current political issues and education policy in Missouri. The following pages present results for most survey questions. The margin of error for survey results for the full sample is 3.64%. Margins of error for questions asked to subsamples are listed below where available. Original data and analyses from the SLU Poll Directors are available at <http://www.slu.edu/poll>.

Funding and Support

The February 2025 SLU/YouGov Poll was funded by the PRiME Center, an independent research center housed in the SLU's School of Education.

About Saint Louis University

Founded in 1818, Saint Louis University is one of the nation's oldest and most prestigious Catholic institutions. Rooted in Jesuit values and its pioneering history as the first university west of the Mississippi River, SLU offers more than 15,200 students a rigorous, transformative education of the whole person. At the core of the University's diverse community of scholars is SLU's service-focused mission, which challenges and prepares students to make the world a better, more just place.

Methodology and Weighting

YouGov interviewed 1320 Missouri (MO) registered voters, with the goal of screening for and surveying Missouri likely voters. The Missouri registered voters were then matched down to a sample of 1085, yielding a target subsample of 900 likely voters including 450 from each treatment group. The respondents were matched to a sampling frame on gender, age, race, education and treatment group. The sampling frame is a politically representative “modeled frame” of US adults, based upon the American Community Survey (ACS) public use microdata file, public voter file records, the 2020 Current Population Survey (CPS) Voting and Registration supplements, the 2020 National Election Pool (NEP) exit poll, and the 2020 CES surveys, including demographics and 2020 presidential vote.

The matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity and education. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles.

The weights were then post-stratified on 2020 and 2024 presidential vote choice as well as a four-way stratification of gender, age (4-categories), race (3-categories), and education (4-categories). The weighted dataset of registered MO voters was then subsetted on likely MO voters, and the weights were trimmed and recentered around 1, to produce the final weights for Likely Missouri voters.

POLS001

Do you approve or disapprove of the way each is doing their job...President Donald Trump?

- Strongly approve: 42%
- Approve: 14%
- Disapprove: 5%
- Strongly disapprove: 37%
- Not sure: 2%

POLS002

Missouri state legislators have proposed police departments in some Missouri cities can be controlled by the state (for example, a board that includes the mayor and members approved by the governor) instead of locally (for example, a board appointed by the mayor).

Who do you prefer to control the following police departments in the state of Missouri...Your local police department?

- State control (for example, Governor-appointed board): 22%
- Local control (for example, a board appointed by the mayor): 68%
- Not sure: 11%

EDU003

To the best of your knowledge, what time do public high schools start in your district?

- Mean: 7:43 AM
- Median: 8:00 AM

Subsample Question: The sample size for this question is 814; 85 respondents answered with "don't know" and 1 respondent did not answer

EDU004a

Research indicates that high school students need more sleep, and later school start times could increase the amount of sleep students get and thus provide health, academic, and safety benefits. The American Academy of Pediatrics (AAP) recommends that high schools delay start times until at least 8:30 AM. However, some say delaying school start times disrupts the schedules of working parents, creates transportation issues, and complicates the scheduling of extracurricular activities (e.g., sports).

What time do you think public high schools in your district *should* start?

- Mean: 8:08 AM
- Median: 8:01 AM

Subsample Question: The sample size for this question is 429; 21 respondents answered with “don’t know”

EDU004b

What time do you think public high schools in your district *should* start?

- Mean: 8:09 AM
- Median: 8:00 AM

Subsample Question: The sample size for this question is 433; 17 respondents answered with “don’t know”

EDU005

What would be your main concern about moving back school start times?

- My work schedule: 9%
- Extracurricular activities (for example, sports): 6%
- Childcare: 6%
- Student waking time: 11%
- Transportation (for example, bussing): 12%
- I am not resistant to moving back school start times: 57%

- Not sure: 5%

EDU020

At what age should children be legally allowed access to social media?

- Mean: 12
- Median: 12

EDU021

A bill in the Missouri state legislature proposed school districts adopt internet safety policies for students to be allowed to access the internet provided by the school district. These policies would:

- Limit students' internet access to age-appropriate subject matter
- Protect students' security and safety when using electronic communications (for example, email or chat rooms)
- Prohibit students from accessing data or information relating to unlawful online activities (for example, hacking or fraud)
- Prohibit students from accessing websites or software that does not protect students' personal information

Do you favor or oppose school districts adopting such policies?

- Favor: 85%
- Oppose: 3%
- Not sure: 12%

Subsample Question: The sample size for this question is 450; the margin of error is $\pm 5.01\%$
